

IMPACT

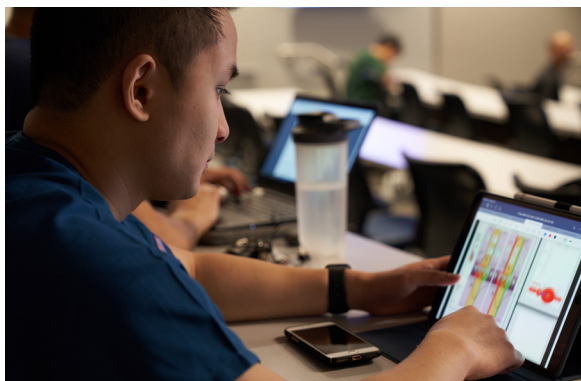

THE WORLD NEEDS WHAT WE DO BEST

THE CAMPAIGN FOR MOREHOUSE SCHOOL OF MEDICINE

The Capital Pillar

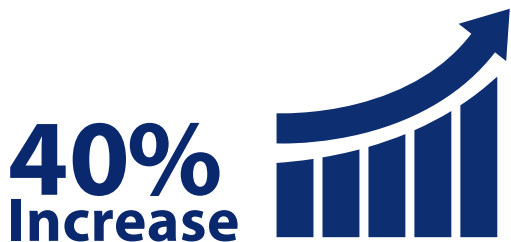

Morehouse School of Medicine has extended its comprehensive **IMPACT campaign** with a new fundraising goal of \$500 million. The second phase of the campaign will bolster three key pillars: **Education, Innovation, and Capital.**

The Urgent Demand for Growth

New Academic Building

Cutting-edge medical school facilities create the competitive advantage needed to attract the best and brightest students from around the world. Morehouse School of Medicine (MSM) aims to develop the talented future health care leaders who can tip the scale in the fight for health equity.

Over the past six years, MSM's student body has grown by 40% and we project that this number will continue to increase. Not only are we expanding our programs, but in 2024, we expect our incoming MD class to double. We produce 20% of the Black and Brown health-care professionals across the globe — our expansion will only further health equity.

The Calvin Smyre Education Conference Center

THE CHALLENGE

Since the pandemic, our growth has already exceeded the physical capacity of our campus.

• **The Solution**
We are expanding our campus to advance our mission and accommodate our unprecedented growth.

Supporting our Growth

Supports our Mission

We are transforming our labs with smart technology and optimal safety precautions to ensure that our students are learning in state-of-the-art environments.

MSM's decades of service has established us as a trusted source of medical information by BIPOC people.

Enhancing our campus

Enable us to attract top talent, encouraging the cultivation of cultural competence in more health care leaders — further bridging the gap between the medical community and BIPOC people

Creating more offices for staff

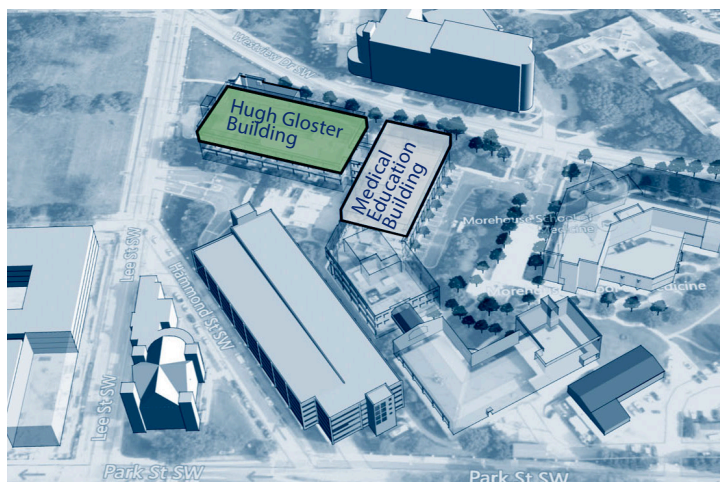

Support our growing student body and program expansion

Developing smart, collaborative learning and study spaces for our faculty and students

Facilitate the cross pollination of dynamic ideas and innovative health care solutions

Medical Education Building & Hugh Gloster Renovations

MSM is leading in the creation and advancement of health equity.

We are working diligently to modernize our facilities and resources- increasing our ability to attract and retain new talent. We aim to meet the demands of the ever-evolving field of medicine and science, but we cannot do this alone.

MSM invites you to partner with us on our journey of expansion because when we expand the physical footprint of our campus, we expand the possibility of health equity for all.

Not only does the world *need* what we do best, it cannot afford to be without it.
